

Independent Verification of Greenhouse Gas Emissions Data

Ratch Pathana Energy Public Company Limited places importance on the accuracy, transparency and reliability of greenhouse gas (GHG) emissions data. The Company arranged for independent external verification of its GHG emissions data for 2025. The Company's emissions data within the defined reporting boundary were verified in accordance with TGO standards.

TGO Guidance of the Carbon Footprint for Organization. The verification covered the following GHG emissions scopes:

- **Scope 1:** Direct GHG emissions and removals from the organization.
- **Scope 2:** Indirect GHG emissions from energy use.
- **Scope 3:** Other indirect GHG emissions.

The verification was conducted at a **Limited Assurance** level by Bureau Veritas Certification (Thailand) Ltd. for the reporting period from [01/01/2025] to [31/12/2025].

Further verification details and the independent verification report / statement are available at <https://sustainability.ratchpathana.com/en/environment/climate-change>
